BEFORE YOU BUY

Check the renewal price, not just the first year.

Swipe →

01 · THE RENEWAL PRICE

A cheap first year tells you nothing about year two.

Low first-year prices are common. The renewal price is what you pay every year after that, and it's often higher. It's usually shown near checkout, sometimes in small print.

02 · PREMIUM NAMES

Some premiums renew at a premium.

A name marked "premium" can keep its higher price every year, not just the first. Check which kind you're buying before you click.

03 · THE REAL PRICE

Add up three years, not one.

That's what the name actually costs you. Then check its estimated value and health for free at sparkledomain.com
