No account needed. That was a decision.

How we decided what SparkleDomain asks of you, and when.

WHAT YOU GET ON THE FIRST VISIT

Value estimate. Health check. Availability.

No sign-up wall. The first visit is where trust gets earned, so we don't ask for it there.

Give first. Ask when there's a reason.

The account shows up when it's worth something: your search history and SEO checks. Same rule we bring to anything we build.
